Figure 21M-3500

This diagram is an exploded view of a mechanical assembly, likely a vehicle's suspension or steering component. It features 43 numbered parts, including various brackets, bolts, springs, and linkages. The parts are arranged in a way that shows their relative positions and how they fit together. Key components include a central bracket (14), a control arm (15), a steering knuckle (16), a coil spring (19), a shock absorber (20), and a tie rod end (21). The diagram is a black and white line drawing with dashed lines indicating the assembly path.

Figure 21A-1900

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or motor. The components are numbered 1 through 29. The assembly is organized into three main horizontal sections. The top section (parts 1-13) includes a large outer ring (1), a thick cylindrical component (2), a small pin (3), a ring (4), a ring (5), a ring (6), a set of three small rectangular components (7), a ring (8), a ring (9), a ring (10), a ring (11), a ring (12), and a ring (13). The middle section (parts 14-23) includes a large ring (14), a small ring (15), a ring (16), a ring (17), a ring (18), a ring (19), a ring (20), a ring (21), a ring (22), and a ring (23). The bottom section (parts 24-29) includes a ring (24), a ring (25), a ring (26), a ring (27), a ring (28), a ring (29), and a ring (30). Dashed lines indicate the assembly path and alignment of the components.

Figure 24-1600

Diagram illustrating the air conditioning system components and their connections for a 1965-1966 Ford Mustang. The components are numbered 1 through 19.

The diagram shows the engine, compressor, condenser, evaporator, and various hoses and fittings. The evaporator is shown in a dashed box, indicating its location within the vehicle's body. The condenser is shown as a large, rectangular unit. The evaporator is shown as a smaller, cylindrical unit. The compressor is shown as a large, cylindrical unit with a pulley. The hoses are shown connecting the various components. The fittings are shown as small, cylindrical components. The diagram also shows two types of evaporator connections, labeled TYPE 1 and TYPE 2.
